

# OC Dynamic Equity Fund

---

January 2012

## Fund Description

The OC Dynamic Equity Fund is a long only benchmark unaware Fund with a target investment universe of ASX listed securities, outside the S&P/ASX 100 Index.

The objective of the Fund is to provide investors with strong long-term risk adjusted returns through investment in high quality small to medium size industrial companies with strong business models and attractive investment fundamentals.

The Fund combines the above core investment strategy of the OC Premium Fund with the objective of adding further value through a combination of investment in the emerging leaders strategy and the alpha plus strategy of investment in catalyst driven stocks that OC believe have near term share price upside.

## Key Features

- Core focus on domestically based businesses with high quality management and business models.
- Access to five highly experienced investment professionals focused on generating excess returns.
- A unique core portfolio that does not invest in companies that have complex technologies (i.e. biotechnology), commodity based businesses, unproven business models, companies with major offshore operations or inaccessible management.
- A proven bottom up approach to active investment management using OC's established investment skills to deliver excess risk adjusted investment returns.
- An intensive company visitation program with industry analysis and strong industry contacts to provide an 'informational edge'.
- Proprietary investment database built up over 10 years.
- Flexible cash weightings of up to 20% which is a residual of the implementation of bottom up stock analysis and liquidity.
- Strong alignment of interests with clients. The managers are owners of the business and investors in the funds, providing strong investment performance incentive.
- A cap on size of funds under management to avoid compromising investment performance by lack of transactional flexibility.

## Investment Performance

Performance to 31 January 2012	1 Month	3 Months	6 Months	1 Year	3 Years (p.a.)	5 Years (p.a.)	Since incept (p.a.)	*Since incept
